

CITY OF SPRINGFIELD  
INTER-OFFICE MEMORANDUM

ATTENTION OF Memo to file

DATE January 30, 1978

DEPARTMENT

Re: Gasoline in the Sanitary Sewer  
Line at 1900 E. Meadowmere.

During the week of the 23rd of January, 1978, personnel from the Western Electric Company, 1902 E. Meadowmere, contacted this office stating that they had a strong smell of gasoline in their office. Gene Pabst and Stephen Short, from this office, investigated the complaint and could not find the source of the gasoline. On January 30, 1978 personnel from this office again tried to locate the source of gasoline in the sanitary sewer and traced it to a Sinclair Station on the corner of Meadowmere & Glenstone.

Mr. Eric Tietze, Regional Manager for Sinclair, was contacted. Mr. Tietze explained that he had a leak in one of their gasoline lines between the pump and the island. He explained that he closed the station down as soon as he was aware of the situation (January 16, 1978). He stated that he had estimated the loss at roughly 2000 gallons. Mr. Tietze said that he would not open the station until the problem was corrected.

Mr. Tietze was informed of his need to contact the proper authorities.

SIGNED

  
Gene Pabst, WPCI III, S & E
